Short support description	Installed in the top 10 of the best hospitals in France, CHU Grenoble Alps is the reference and resort centers in the Alps, a living area for 2 million people. Performing in all medical specialties and equipped with state of the art equipment, the CHUGA has many areas of excellence, both in medical care and in research. The clinical research delegation of the center is in charge of regulatory submission and project management for all categories of clinical trials (ie, medical devices, drug and less interventional projects). In the hospital are performed all investigations, with dedicated staff and equipment.

This profile is part of the [Comprehensive Inventory \(CI\)](#) provided by the [STARS project](#).

Purpose of the CI is to assist European academic drug developers in finding support on regulatory affairs. The inventory lists various support services provided by national competent authorities, public actors and private entities.

For information about the STARS project please visit www.csa-stars.eu or contact CoordinationSTARS@bfarm.de.
