Short support description	Health Research Board Clinical Research Coordination Ireland (HRB CRCI) is an independent integrated national clinical research network, providing centralised support in the conduct of multicentre clinical trials (both commercial and academic) across Ireland. We are a distributed organisation with a central office in Dublin and a network of clinical research facilities/centre across Ireland. The HRB CRCI central office provides overarching support and expertise, through a range of services and activities to academia and industry. The partner Clinical research facilities/centres provide the infrastructure, physical space and facilities, experienced research and specialist support staff and the necessary quality and oversight programs that are critical for the successful conduct of world-class patient-focused research. HRB CRCI is also the national partner for ECRIN (European Clinical Research Infrastructure Network) and houses the European Correspondents.

This profile is part of the [Comprehensive Inventory \(CI\)](#) provided by the [STARS project](#).

Purpose of the CI is to assist European academic drug developers in finding support on regulatory affairs. The inventory lists various support services provided by national competent authorities, public actors and private entities.

For information about the STARS project please visit www.csa-stars.eu or contact CoordinationSTARS@bfarm.de.
