

PROVIDER PROFILE

Name of the organisation	Institute for Interdisciplinary Innovation in healthcare
Type of the organisation	Not available
Contact email(s)	info@i3health.eu
Offering website	www.i3health.eu
Service language(s)	English
Target group	Principal Investigators, Researchers, Students, Companies
Type of the support	Training & Education in Healthcare Innovation and interdisciplinary skills e.g. negotiation skills, entrepreneurship, etc.
Short support description	The objective of the course is to prepare the next generation of healthcare professionals to be able to face new challenges of precision patient-centric practice. We provide them with a basic knowledge and a holistic vision of the complex processes that translate scientific advances into novel standards of care. The course consists of interactive sessions led by experts from academia, public health organizations, private companies and patient representatives. Through lectures, quizzes, workshops and an online learning platform, students can achieve competencies which address a variety of scientific, business, management and social issues.

This profile is part of the [Comprehensive Inventory \(CI\)](#) provided by the [STARS project](#).

Purpose of the CI is to assist European academic drug developers in finding support on regulatory affairs. The inventory lists various support services provided by national competent authorities, public actors and private entities.

For information about the STARS project please visit www.csa-stars.eu or contact CoordinationSTARS@bfarm.de.
