Short support description	<p>The Research Quality Association (RQA) is a professional membership body dedicated to supporting individuals engaged in the quality of research, including pharmaceuticals, agrochemicals, chemicals and medical devices. Since the organisation's inception in 1977, the Association has grown and developed to reflect regulatory changes, the impact of regulatory inspection, and the changing structure and needs of the profession. The RQA is committed to providing valuable learning opportunities to enhance professional development. RQA's learning products are open to everyone – all levels, abilities and disciplines. The RQA website (www.therqa.com) is a major source of information for professionals and includes a careers area, individual areas covering GxP disciplines with information, regulations, guidelines, Q&As and news about each GxP, a learning area featuring all training events – courses, seminars and forums, a section on products – books, webinars, elearning, and webcasts, plus the latest news and a growing bank of useful resources.</p>

This profile is part of the [Comprehensive Inventory \(CI\)](#) provided by the [STARS project](#).

Purpose of the CI is to assist European academic drug developers in finding support on regulatory affairs. The inventory lists various support services provided by national competent authorities, public actors and private entities.

For information about the STARS project please visit www.csa-stars.eu or contact CoordinationSTARS@bfarm.de.
